New Holland and Case IH Baler Net Wrap is premium quality net wrap that is tough enough to be used with all crop types with consistent performance.

- Knitted netting is light, easier to use and cost-effective
- Durable design that resists punctures and tears for safe and reliable transport
- Bright loading marker that guides you in loading the roll in the baler correctly
- Guaranteed length so that you can maximize number of bales per roll
- Proven UV stabilized to withstand extreme weathering conditions
- Red end of roll warning stripe to alert you that the end of the roll is coming

BridonMAX™ is equivalent to TamaNet
